

SUITABLE FOR LIGHT INDUSTRY APPLICATIONS

**LogTag**<sup>®</sup>

**STX-50**  
External sensor extension cable

The LogTag® STX-50 is a 5 meter (~16' 5") extension cable for extending ST10 or ST100 external temperature sensors.

The socket end of the cable (which accepts the ST100 or ST10 sensor plug) is fitted with a flexible sleeve that when the ST sensor's plug is in place will protect the mated connection to IP61.

## Features

---

FDA Food Rated and Gold Plated Connector.

Available in 5.0 Meter Cable Length (only 1 extension per logger).

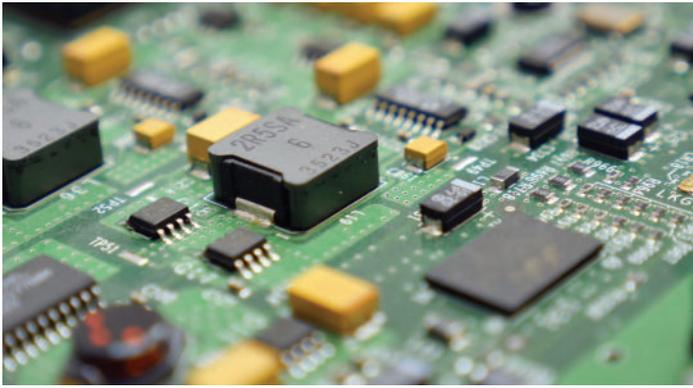

Extension is designed as a permanent connection and not for frequent connections.

Cable Terminated to MCX Plug.
