

ThermalSeal®

An easier to remove film

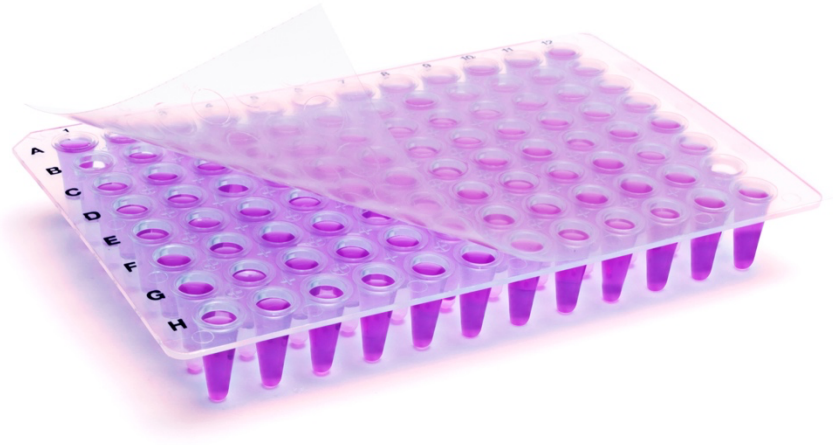

Application:

PCR and general storage

Temperature Range:

-40°C to +120°C

CATALOG #	DESCRIPTION	QUANTITY
100-THER-PLT	ThermalSeal	100 Sheets
STR-THER-PLT	ThermalSeal, Sterile	100 Sheets

Features and Benefits

- Certified DNase- & RNase- free
- Features a moderate strength adhesive for ease of removal
- A less rigid polypropylene film that minimizes aerosols upon removal
- Features good chemical resistance
- Only recommended for structurally rigid polypropylene PCR plates that don't warp

Bundling Opportunities

- PCR plates
- PCR reagents
- Thermal cyclers
- Pipettors and pipet tips
- Reservoirs
